ASSET MANAGEMENT

1. Adjusted to eliminate the effects of currency
 2. All non-GAAP numbers have been adjusted to exclude certain items. A reconciliation of specific adjustments to GAAP results for the current and prior periods is included as a part of Q122 earnings presentation, available at <https://investors.hpe.com>
 3. ARR represents the annualized revenue of all net GreenLake services revenue, related financial services revenue (which includes rental income from operating leases and interest income from capital leases) and software-as-a-service, software consumption revenue, and other as-a-service offerings, recognized during a quarter and multiplied by four. We use ARR as a performance metric. ARR should be viewed independently of net revenue and is not intended to be combined with it.
 4. Operating company net cash is defined as total company net cash excluding the cash and debt associated with Financial Services.
 5. Free cash flow = cash flow from operations less net capital expenditures; net capital expenditures = investments in property, plant and equipment less proceeds from sale of property, plant and equipment

1. Adjusted to eliminate the effects of currency.

2. Q222 and FY22 non-GAAP diluted net EPS excludes after-tax costs of approximately \$0.23 per share and \$0.67 per share, respectively, primarily related to transformation costs, stock-based compensation and amortization of intangible assets. Hewlett Packard Enterprise provides certain guidance on a non-GAAP basis, as the company cannot predict some elements that are included in reported GAAP results.

3. Free cash flow = cash flow from operations less net capital expenditures; net capital expenditures = investments in property, plant and equipment less proceeds from the sale of property, plant and equipment

4. A description of HPE's use of non-GAAP financial information is provided as part of Q122 earnings presentation, available at <https://investors.hpe.com>
